

HARISH NAGARAJAN

Chief Delivery & Operations Leader | Strategic Governance | P&L | Customer Lifecycle & Revenue Operations
harishdelivery.cx@gmail.com · +91-9360022177 · [LinkedIn](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Executive leader with 20+ years of experience driving global delivery, business transformation, and P&L growth for SaaS and technology enterprises. Proven ability to build and scale high-performance delivery organizations that consistently improve margin, accelerate revenue realization, and enhance customer outcomes across geographies. Recognized for translating strategic vision into structured, scalable, and profitable execution — serving as a trusted partner to CXOs across the US, AMEA, and EMEA markets.

CAREER IMPACT AT A GLANCE

\$50M+ P&L Portfolio	40% Gross Margins	90%+ Revenue Realization	+40 NPS Growth	4.7 CSAT Score
50% Faster Time-to-Revenue	85% Onboarding Conversion	90% Utilisation Rate	100+ FTE Team Scale	+20% Expansion Revenue

CORE COMPETENCIES

Global Delivery Leadership & Governance	P&L Ownership & Revenue Growth	GTM Strategy & Execution
SaaS Onboarding & Implementation at Scale	SLA Design & Escalation Management	NPS/CSAT Transformation & CX Design
Operating Model Design & Transformation	Resource Planning & Utilisation Optimisation	GRR/NRR Ownership & Churn Intelligence
Enterprise Stakeholder & CXO Engagement	Program & Portfolio Management (\$50M+)	Product-Delivery Integration & Roadmap Influence
AI-Augmented Support Operations	Cross-Platform Delivery Intelligence	Change Management & Distributed Teams

WORK HISTORY

D4 Insights | Delivery Consulting GCC- Senior Delivery Manager (Client: ENBD)

Jan 2025 – Dec 2025 | Chennai, India

- Delivery Governance** — Owned end-to-end delivery operations as D4 Insights' senior representative within ENBD's GCC (Chennai), aligning offshore outcomes with GCC mandates to ensure predictable, high-quality execution.
- Revenue Growth** — Drove delivery-led commercial expansion that tripled headcount in 9 months and scaled revenue from \$3.5M to \$6M, directly linking GCC delivery excellence to business growth.
- Resource Planning & Utilisation** — Maintained a 90% billable utilisation rate through a proactive hiring model driven by rolling pipeline reviews — forecasting demand via weekly client calls and sales leadership connects, ensuring bench strength was always aligned to known and anticipated requirements rather than reactive backfill.

- **Demand Surge Management** — Proactive capacity planning eliminated reactive scrambles during demand spikes — internal forecast accuracy and client expectations were consistently managed in lockstep, with no delivery disruption across the engagement lifecycle.
- **Team Leadership** — Built, led, and mentored a 100+ member offshore engineering organization, establishing delivery governance and performance frameworks that drove billing reliability from 60% to 95% on-time conversion month-on-month.
- **Stakeholder Engagement** — Served as primary vendor leader in CXO-level Steering Committees, presenting delivery metrics and strategic roadmaps to build trusted-advisor relationships, secure long-term retention, and enable real-time decisions via centralized dashboards.
- **Commercial Alignment** — Partnered with Sales and Customer Success to proactively map client demand to talent capacity, reducing ramp time and accelerating revenue conversion, while championing capability development and employer branding.

Netcore Cloud | Global Delivery Head, Senior Vice President

Jun 2022 – Aug 2024 | Chennai, India

- **E2E SaaS P&L & Lifecycle Ownership** — Owned a \$10M+ global customer lifecycle business spanning onboarding, implementation, and early-stage Customer Success, co-owning AOP and driving alignment across Sales, Product, Delivery, and CS to accelerate ARR realization.
- **ARR Realization & Revenue Acceleration** — Reduced time-to-revenue by 50% and improved onboarding conversion to 85% by eliminating systemic friction across the post-sales journey; drove 20% expansion revenue growth and reduced early churn by 15%.
- **GRR & NRR Ownership** — Owned retention intelligence across the customer base — logo churn was tracked and reported as complete revenue loss (GRR impact), while customer downsizing and contraction were captured through NRR, providing leadership with a precise, two-dimensional view of revenue health across the portfolio.
- **SLA Governance & Escalation Management** — Designed and enforced a tiered SLA framework — 24*7. Acted as the leadership council for client escalations and owned outcomes/resolutions.
- **AI-Augmented Support Operations** — Deployed AI-powered support automation including chatbot-driven responses and historical ticket knowledge base automation — reducing manual support effort, improving first-contact resolution, and enabling the team to focus on complex, high-value escalations.
- **Product-Informed Roadmap Influence** — Acted as the voice of the customer in cross-functional roadmap reviews, translating implementation-stage insights and customer feedback into structured, prioritized product intelligence — directly influencing backlog decisions alongside Product, Engineering, and Infrastructure leadership to align platform evolution with real-world delivery outcomes.
- **Delivery Intelligence Infrastructure** — Integrated Freshdesk, Rocketlane, and Jira to create a unified, real-time view of ticket performance, delivery progress, and Agile development — establishing a single trustworthy source of truth that powered QBR reporting and enabled proactive, data-driven decision-making for leadership.
- **Customer Experience & Advocacy Strategy** — Built a structured CX program converting successful implementations into executive-level testimonials, case studies, and success narratives, strengthening Sales conversion and reinforcing expansion momentum.
- **Enterprise Operating Model Transformation** — Designed a unified operating model integrating GTM, Delivery, and CS, anchored in QBRs, rolling forecasts, and KPI-driven governance — improving revenue predictability and cross-functional accountability.
- **Scalable Growth & Cost Efficiency** — Built demand-capacity and revenue-fulfillment models linking pipeline, hiring, and cost structures; scaled a 45+ FTE global team with zero attrition and strong succession depth.
- **Partner Ecosystem & Revenue Leverage** — Established and scaled a global SI/vendor ecosystem contributing to 10% incremental revenue growth while maintaining delivery quality across regions.

Freshworks | Senior Engagement Manager

Mar 2019 – Apr 2020 | Chennai, India

- **Strategic Onboarding & Revenue Realization** — Managed end-to-end implementation for 35+ customers with a P&L of \$15M annually across AMEA and EMEA, converting new sales into live, revenue-generating deployments.

- **Customer Retention & Adoption** — Improved retention by 10% within one year for key EMEA accounts by designing tailored onboarding programs that accelerated time-to-value and product adoption.
- **Cross-Functional GTM Execution** — Partnered with Sales, Product, and CS to operationalize regional GTM execution across Retail, Travel, Banking, and Media industries.
- **Quality Assurance & Governance** — Drove functional testing, risk identification, and proactive reporting frameworks, ensuring delivery quality and strong stakeholder visibility throughout the project lifecycle.

Synechron | Associate Director

Feb 2017 – Mar 2019 | USA (Onsite)

- **Strategic Client Ownership & P&L** — Owned P&L and end-to-end delivery for a \$10M+ transformation program with a leading FinTech client, delivering 25% margin on a fixed-bid model.
- **Onsite Program Leadership** — Led a 35-member team at client location as primary delivery lead and single point of accountability, driving execution and stakeholder alignment in a high-visibility environment.
- **Revenue Growth & Account Expansion** — Drove upsell and cross-sell opportunities, led proposals, and contributed to account growth through sustained C-suite relationship management.
- **Global Delivery Model** — Established and governed delivery across onshore, nearshore, and offshore teams, implementing standardized processes and quality benchmarks for predictable, scalable execution.

Capgemini | Engagement Manager

Jun 2011 – Feb 2017 | USA (Onsite)

- **End-to-End Engagement Ownership** — Led a \$25M transformation program at client location, managing a 25-member cross-functional team across multiple vendors for delivery, quality, and program success.
- **Quality-Led Transformation** — Drove end-to-end quality engineering strategy during COTS to digital product migration, minimizing production risks during large-scale transformation.
- **Automation & Regression Optimization** — Increased regression coverage by 30% and reduced manual testing effort by 50%, significantly improving release efficiency.
- **Cost of Quality Optimization** — Established CoQ metrics and governance, driving better defect containment, reduced rework, and optimized testing investments.
- **Agile Pod Enablement** — Designed Agile pod structures with embedded QA, improving defect detection and release velocity while instituting proactive risk frameworks.
