

## HARISH NAGARAJAN

### Global Delivery & Business Transformation leader

#### Contact Information

Email: [harishdelivery.cx@gmail.com](mailto:harishdelivery.cx@gmail.com)

Mobile: +91-9360022177

LinkedIn: <https://www.linkedin.com/in/harishnagarajan>

Website: <https://harishdelivery.github.io>

#### PROFESSIONAL SUMMARY

Executive leader with 20+ years of experience driving **global delivery, business transformation, and P&L growth** for SaaS and technology enterprises. Proven ability to build and scale **high-performance delivery organizations** that consistently improve margin, accelerate revenue realization, and enhance customer outcomes across geographies.

Expertise in architecting **scalable operating models**, leveraging data-driven decision-making to accelerate time-to-value, and transforming customer onboarding and implementation into **strategic growth levers**. Strong track record of leading **large-scale transformation programs**, aligning business, product, and technology functions to deliver measurable impact.

Recognized for building and mentoring **globally distributed teams**, strengthening delivery governance, and driving continuous operational excellence in complex, multi-market environments. A trusted partner to **CXOs and commercial leaders**, translating strategic vision into **structured, scalable, and profitable execution**.

#### Selected Executive Level Impact summary:

- **Financial & Growth Leadership:** Delivered **40%+ operating margin** across service delivery while achieving **90%+ on-time revenue conversion**, strengthening profitability and improving revenue predictability.
- **Customer & Market Excellence:** Drove a **+40-point NPS uplift within 12 months** and sustained **4.7+ CSAT**, positioning customer success as a key growth lever while reducing churn and improving retention.
- **Operational Transformation at Scale:** Reduced **time-to-market by 50%** and improved **conversion rates by 85%** by implementing data-driven delivery frameworks and aligning execution with a scalable global GTM model.

#### Leadership SKILLS

| Operations & P&L Leadership                                                                                                                                                                                                                                              | CX & Growth Leadership                                                                                                                                                                                                                                                                              | Global Delivery Leadership                                                                                                                                                                                                                                                                  |

## EDUCATION

- Bachelor of Engineering in Electrical & Electronics Engineering | **University of Madras** | 1998- 2002

## CERTIFICATIONS

- Project Management Professional (PMP) – PMI
- Engagement Manager Level 2 – Capgemini
- AI for Leaders (Ongoing) – IIM

## WORK HISTORY

### *Netcore Cloud – Global Delivery Head, Senior Vice President*

Chennai, India | Jun 2022 – Aug 2024

- **Global Delivery Leadership at Scale:** Led a **45-member global delivery organization** across multiple geographies, driving end-to-end onboarding, implementation, and customer experience for **SMB and enterprise clients**. Managed complex, multi-country rollouts involving **deep system integrations** and high-touch stakeholder engagement.
- **P&L Ownership (\$10M+) & Revenue Acceleration:** Owned a **\$5M+ annual onboarding P&L**, partnering with Sales, Pre-Sales, and Customer Success to drive growth strategy across segments with **~₹1.5L ACV deals at scale**—improving revenue velocity, conversion efficiency, and margin predictability.
- **Enterprise-Grade Operating Model Transformation:** Designed and scaled a global delivery operating model across people, process, and platforms—delivering a **50% reduction in implementation cycle time** and **85% improvement in conversion rates** across diverse markets.
- **Customer Retention & Expansion Engine:** Built a 'shift-left' success framework that reduced early lifecycle churn by **25%** and increased cross-sell/upsell by **20%**, strengthening **LTV and net revenue retention** across SMB and enterprise portfolios.
- **Product & Market Alignment:** Established a closed-loop feedback system between delivery and product, converting customer insights from complex implementations into roadmap priorities—reducing onboarding friction and improving product-market fit.
- **AI-Driven Delivery Innovation:** Led the evaluation and integration of GenAI solutions into delivery workflows, improving team productivity, standardization, and scalability in high-volume, integration-heavy environments.
- **Executive Stakeholder Management:** Acted as a strategic advisor to CXOs and senior stakeholders across global accounts, aligning delivery outcomes with business objectives and building long-term partnerships.

### *Sakon – Program Manager*

Chennai, India | Jul 2020 – Jun 2022

- **Portfolio Leadership & Outcomes:** Managed a **\$5M+ strategic program portfolio** focused on telecom cost optimization, consistently delivering **90%+ on-time execution**. Strengthened executive governance and stakeholder alignment, resulting in a **30% improvement in client satisfaction (CSAT)**.
- **Data-Driven Operational Innovation:** Led the integration of advanced analytics into the client reporting ecosystem, reducing manual effort by **40%** and enabling **real-time, insight-driven decision-making** for both internal leadership and client stakeholders.
- **Delivery Excellence & Predictability:** Designed and implemented a scalable **hybrid (Agile/Waterfall) delivery framework**, improving execution rigor, accelerating **time-to-market by 25%**, and significantly enhancing delivery predictability across programs.
- **Team Leadership & Capability Building:** Managed and mentored a cross-functional team of **4 Project Managers and 10 Analysts**, achieving **95% retention** while improving overall team throughput by **15%** through structured coaching and performance frameworks..

### **Freshworks – Senior Engagement Manager**

Chennai, India | Mar 2019 – Apr 2020

- **Strategic Onboarding & Revenue Realization:** Managed end-to-end implementation and onboarding for **35 customers annually** across AMEA and EMEA, converting new sales into **live, revenue-generating deployments** across SMB and enterprise segments (~\$5K ACV).
- **Professional Services Delivery & Program Management:** Owned full lifecycle delivery including **program planning, effort estimation, Statement of Work (SOW) definition, and milestone tracking**, ensuring predictable execution across both **Agile and Waterfall delivery models**.
- **Customer Retention & Adoption Growth:** Improved retention by **10% within one year** for key EMEA accounts by designing tailored onboarding and training programs that accelerated **time-to-value and product adoption**.
- **Integration-Led Delivery Excellence:** Led implementations involving **marketplace and third-party integrations**, managing cross-system dependencies and ensuring seamless adoption in complex customer environments.
- **Cross-Functional GTM Execution:** Partnered with Sales, Product, and Customer Success to operationalize regional **GTM execution**, ensuring onboarding processes supported **scalable growth and consistent outcomes** across industries (Retail, Travel, Banking, Media).
- **Quality Assurance, Risk & Governance:** Drove **functional testing, risk identification, and proactive reporting frameworks**, ensuring delivery quality, early issue resolution, and strong stakeholder visibility throughout the project lifecycle.
- **Delivery Quality & Customer Experience:** Elevated implementation standards by aligning delivery teams to measurable business outcomes, strengthening **customer satisfaction, trust, and long-term engagement**.
- **Team Enablement & Execution Discipline:** Mentored implementation teams to operate with greater agility, accountability, and customer focus—improving delivery consistency and enabling **sustained account growth and advocacy**.

### **Synechron – Associate Director**

USA | Feb 2017 – Mar 2019

- **Strategic Client Ownership & P&L Delivery:** Owned P&L and end-to-end delivery for a **\$10M+ transformation program** with a leading FinTech client, delivering **25% margin on a fixed-bid model** while ensuring alignment to business outcomes, timelines, and quality benchmarks.
- **Onsite Program Leadership & Client Engagement:** Led a **35-member team deployed at client location**, acting as the primary delivery lead and single point of accountability—driving day-to-day execution, stakeholder alignment, and rapid decision-making in a high-visibility environment.
- **End-to-End Transformation Execution:** Directed large-scale initiatives spanning **requirements alignment, solution validation, integration testing, and release governance**, ensuring seamless coordination across business, product, and engineering teams.
- **Revenue Growth & Account Expansion:** Managed a portfolio of engagements, driving **upsell and cross-sell opportunities**, leading proposals, and contributing directly to **account growth and regional pipeline expansion**.
- **C-Suite Stakeholder Management:** Built and sustained **trusted advisor relationships with CXO and VP-level stakeholders**, influencing key decisions, improving CSAT, and consistently securing **repeat business and long-term engagements**.
- **Global Delivery Model & Governance:** Established and governed delivery across **onshore, nearshore, and offshore teams**, implementing standardized processes, reporting cadences, and quality benchmarks to ensure **predictable and scalable execution**.
- **Risk, Quality & Release Governance:** Instituted strong **risk management, functional validation, and reporting frameworks**, enabling early issue identification, executive visibility, and smooth releases across complex, multi-stream programs.
- **Quality Engineering as a Transformation Enabler:** Positioned testing as a **business-critical function**, aligning quality engineering practices with transformation goals to reduce release risk and improve overall program outcomes.

## Capgemini – Engagement Manager

USA | Jun 2011 – Feb 2017

- **End-to-End Engagement Ownership:** Led a **\$10M transformation program** at client location, managing a **25-member cross-functional team** across multiple vendors. Accountable for delivery, quality outcomes, stakeholder alignment, and overall program success.
- **Quality-Led Transformation Execution:** Drove end-to-end **quality engineering strategy** across the program, ensuring alignment with business objectives during **COTS to digital product migration** and minimizing production risks during large-scale transformation.
- **Multi-Vendor Delivery & Governance:** Directed execution across multiple vendors, establishing unified **quality standards, governance frameworks, and delivery cadences** to ensure consistency, accountability, and on-time releases.
- **Discovery, Product Fit & Quality Risk Assessment:** Led **portfolio discovery and assessment**, identifying product fit, functional gaps, and quality risks—enabling informed decisions on solution architecture and transformation roadmap.
- **Agile Pod Enablement:** Designed and operationalized **Agile pod structures**, embedding QA within cross-functional teams to improve **early defect detection, faster feedback loops, and release velocity**.
- **Test Data Strategy & Real-World Simulation:** Defined and governed **test data management practices**, enabling real-world scenario simulations that improved test coverage, defect detection accuracy, and production readiness.
- **Automation & Regression Optimization:** Drove automation strategy across functional and regression suites, increasing **regression coverage by 30%** and reducing **manual testing effort by 50%**, significantly improving release efficiency and consistency.
- **Proactive Risk & Quality Management:** Instituted robust **risk management frameworks**, enabling early risk identification, mitigation planning, and continuous tracking—reducing escalations and improving delivery predictability.
- **Cost of Quality (CoQ) Optimization:** Established **CoQ metrics and governance**, balancing prevention, appraisal, and failure costs—driving better defect containment, reduced rework, and optimized testing investments.
- **Test Strategy, Assurance & Release Governance:** Defined and governed **end-to-end test strategy**, including functional validation, integration testing, and release sign-offs—ensuring high-quality, production-ready deployments.
- **Stakeholder & Business Alignment:** Partnered with business, product, and technology leaders to align quality outcomes with business priorities, building **strong client trust and long-term engagement value**.

## Additional Work Experience

- D4 insight- Senior Delivery Manager- (Client ENBD)- Jan 2025- Dec 2026- Chennai
- Oracle Financial Services Software- July 2007- Dec 2009- Chennai
- Infosys Technologies- June 2005- June 2007- Chennai
